Adjacent Consonants: Hear Every Sound

Adult guide: hear each consonant, then blend the whole word.

Four phonemes in every target word

Say consonant sounds crisply, without an added "uh". The c in clap represents /k/. In adjacent consonants, each letter represents its own sound. In the comparison digraph sh, the two letters represent one sound.

Page 1: blend and write

1. flag: f | l | a | g
2. stop: s | t | o | p
3. nest: n | e | s | t
4. hand: h | a | n | d

Page 2: listen and segment

Say one word at a time. Do not show the printed word first.

1. frog: f | r | o | g
2. tent: t | e | n | t

Page 2: build a word that fits

1. step: s | t | e | p
2. lamp: l | a | m | p

For the final spoken sentence, accept a sensible sentence containing one target word. Read the clues aloud when needed. These instructions and sentence clues are not presented as a fully decodable text.
