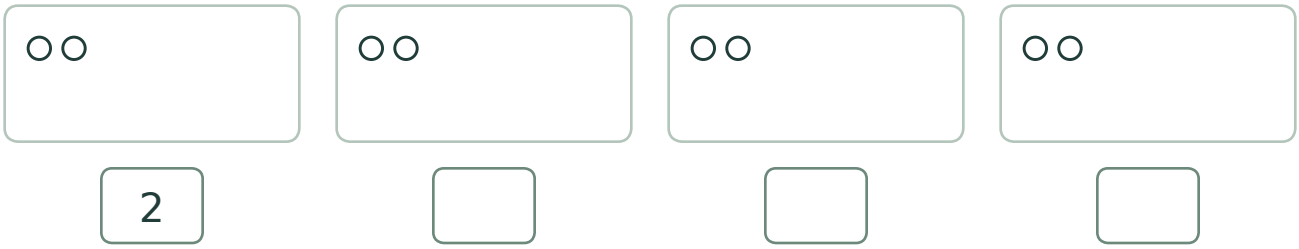
Count in Twos, Fives and Tens

See the groups before continuing the number trails.

Write the running total after each group of counters.

Count in 2s

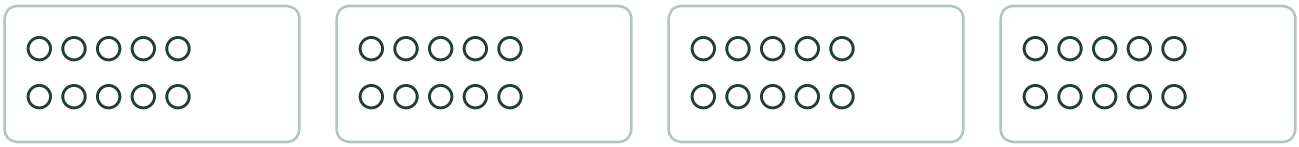


2			

Count in 5s

5		

Count in 10s



10			

Point to each group once. Say the total as you go.

The first running total in each row is shown for you.

Counting Trails: Fill and Explain

Keep the step the same all the way along each trail.

Count in 2s. Start at 4.

4	6		10		

Count in 5s. Start at 10.

10		20		30	

Count in 10s. Start at 0.

0		20			50

A counting mistake

Leo counts in fives: 5, 10, 14, 20.

Which number must change? Explain the correction.
