Cut and Stick Repeating Patterns

1. Complete the repeating strips with matching cut tiles.

Say each pattern aloud. Cut the tiles on page 2. Place them over the question marks, then check before you glue.

Ask a grown-up to help with scissors. Print both pages at 100%.

Strip 1

Point to the part that repeats. Say what comes next.

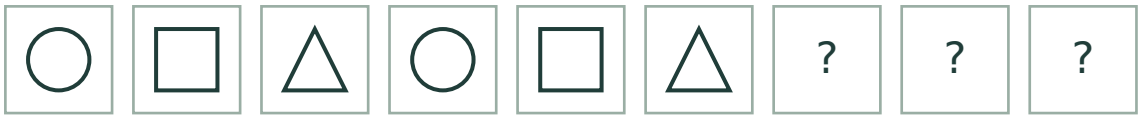
Strip 2

Point to the part that repeats. Say what comes next.

Strip 3

Point to the part that repeats. Say what comes next.

Strip 4



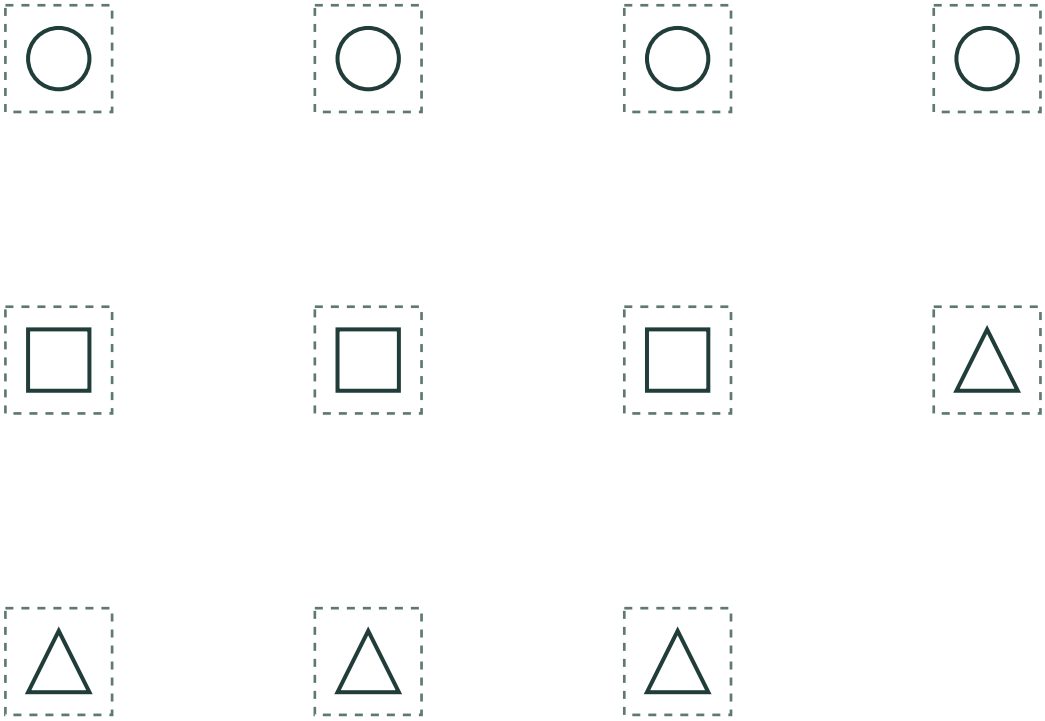
Point to the part that repeats. Say what comes next.

Cut and Stick Repeating Patterns

2. Cut the eleven pieces. Keep this page with the pattern mat.

Cut along the dotted square borders.

There are eleven pieces. Use each once. A grown-up can cut them out first. The solid shapes stay inside the cut lines.



Before you glue

Lay all the pieces on the strips. Say each whole pattern. Does the same part repeat again and again?

Try another way

Point to a repeating unit and clap its rhythm.
