Days of the Week: Read, Trace and Copy

Answers and adult support.

Read the sequence

Monday, Tuesday, Wednesday, Thursday, Friday, Saturday, Sunday. The page begins with Monday as a chosen starting point; the weekly sequence repeats after Sunday.

Copy and check

Each day name begins with a capital letter. Compare all letters with the model and check their order. Read the day aloud before writing.

Keep practice comfortable

Use one or two rows at a time if needed. The light text is a print model to trace, not a named handwriting or letter-formation scheme. Model letters in the method already taught by the child's adult or teacher.
