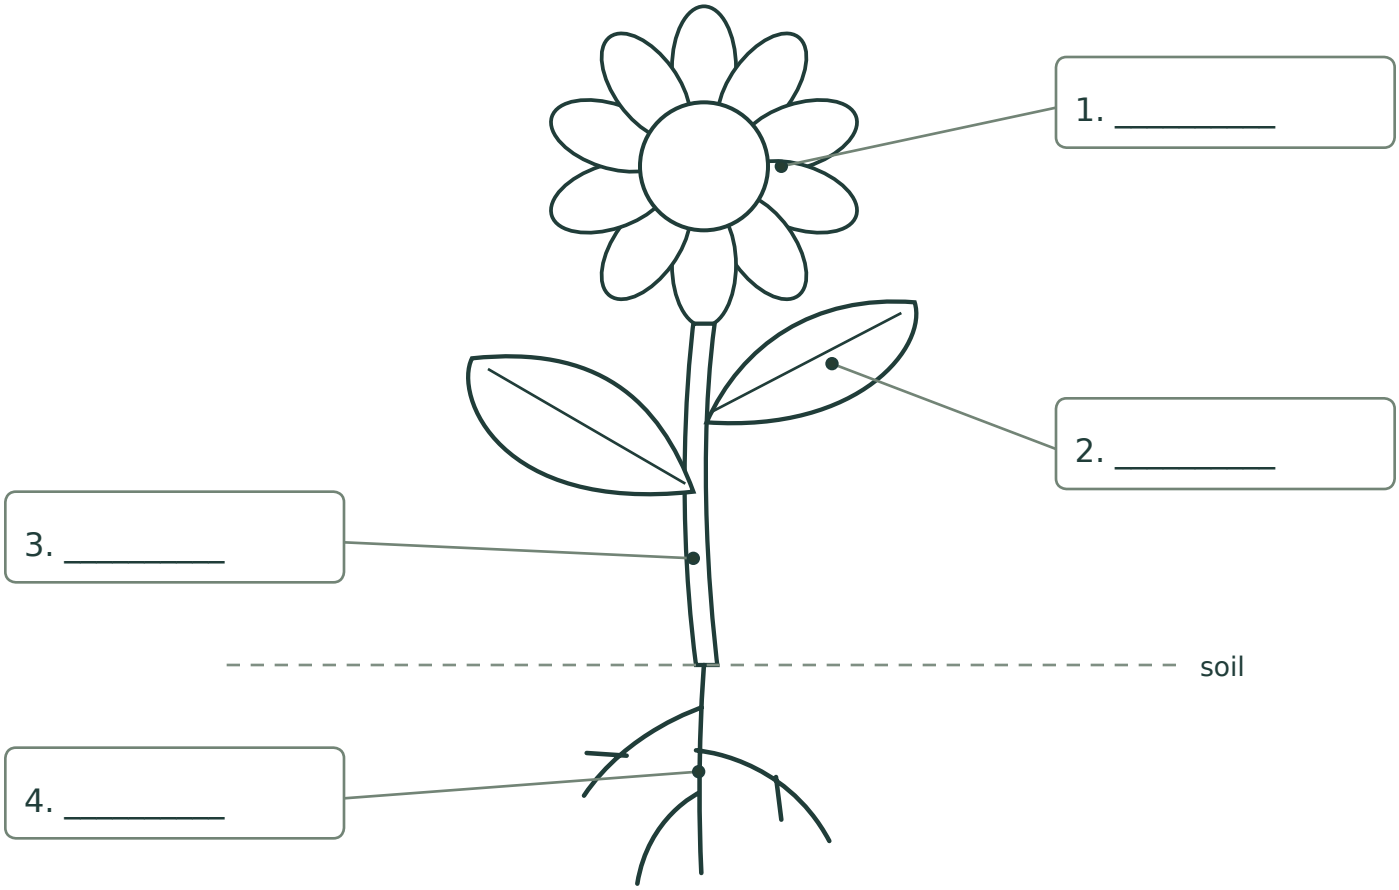
Flowering Plant Parts and Their Jobs

Look at a flowering plant above and below the soil.

Label the four parts using the word bank. Then write one plant part beside each job below.

Word bank: roots / stem / leaves / flower



Which part does each job?

1. Take in water from the soil. _____

2. Hold the leaves and flower up. _____

3. Use light to help make food. _____

4. Helps the plant make seeds. _____
