Four Activities: Timetable Logic

Use all the clues to find one timetable.

Put each activity into one start-time slot. Use every activity once and follow all three clues. These are start times, not activity durations.

Activities: music, building, drawing, reading

1. Music starts at 10:00.

2. Building is in the slot immediately after reading.

3. Drawing is before reading.

Start time	**Activity**
9:00	
9:20	
9:40	
10:00	

1. At what time does reading start? _____

2. How many minutes from reading to music? _____

Read your completed table and check every clue.
