Four Activities: Timetable Logic

Checked answers and adult support.

The unique timetable

9:00 drawing; 9:20 reading; 9:40 building; 10:00 music.

Why the order is fixed

Music fills the last slot. Reading and building must be together in that order. They cannot occupy the first two slots, because drawing must be before reading. Therefore reading and building fill the middle two slots and drawing goes first.

Time questions

1 Reading starts at 9:20. 2 From 9:20 to 10:00 is 40 minutes: two equal twenty-minute intervals. The puzzle specifies start times only; it does not give activity durations.

Check every clue

Every activity is used once, music starts at 10:00, building is immediately after reading, and drawing comes before reading. Independently checking all 24 possible orders gives exactly one solution.
