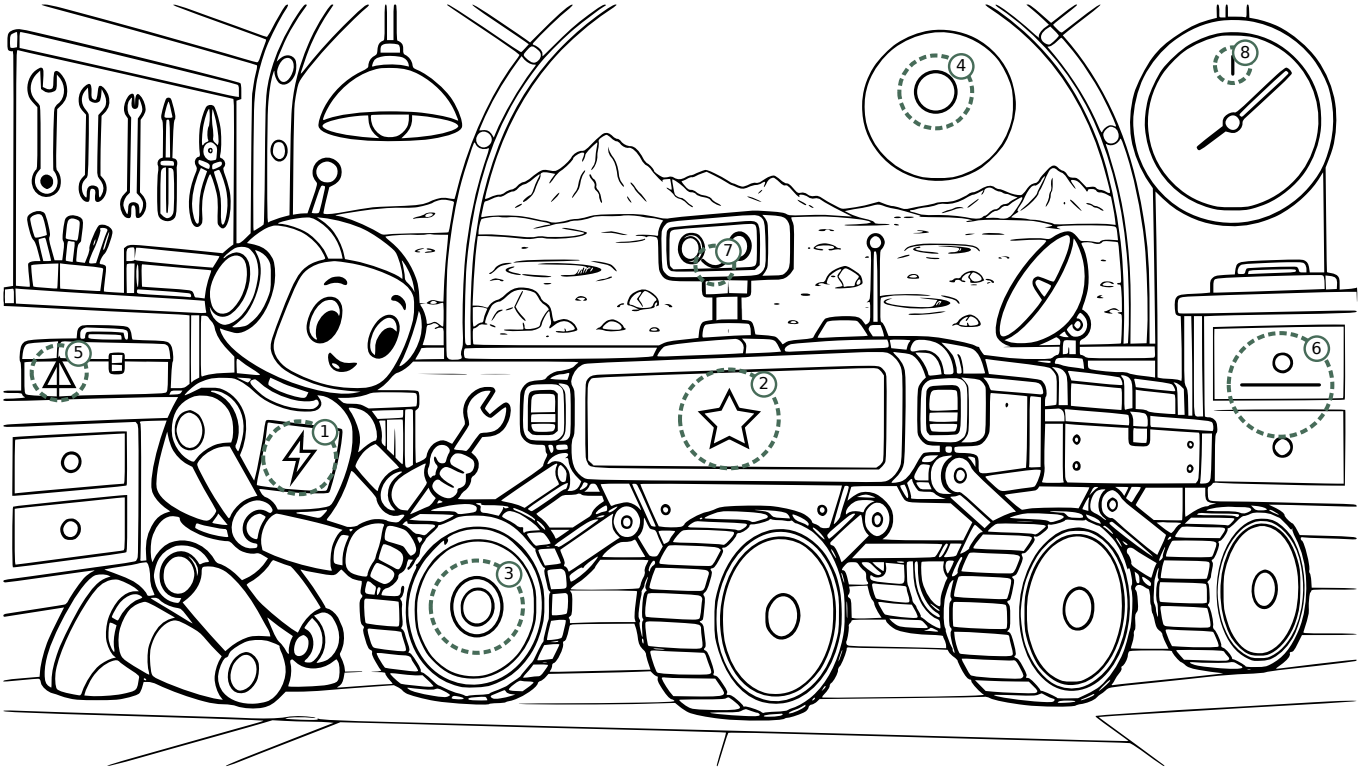
Moon Rover Workshop: Spot Eight Differences

The circles show the exact changes in Picture 2.



1. A lightning badge appears on the robot’s chest.
2. A star appears on the rover’s front panel.
3. An extra ring surrounds the leftmost visible wheel hub.
4. A round crater appears on the planet.
5. A triangle badge appears on the left toolbox.
6. A stripe appears below the upper right drawer handle.
7. A smile appears below the rover camera’s eyes.
8. A short mark appears at the top inside the clock face.
