Pushes and Pulls: Read the Action

Look at the specified action, not every force involved.

A push presses on an object. A pull draws on an object. Read the stated action on the named object. Mark push or pull.

1. Press a book away from you across a table. push / pull

2. Use a handle to draw a toy cart towards you. push / pull

3. Press a drawer into its frame to close it. push / pull

4. Draw a sock over your foot by its top edge. push / pull

5. Press a ball away from you with your hand. push / pull

6. Draw a loose scarf towards you by one end. push / pull

Person on the left. Draw an arrow for the action.

Book pressed away

Cart drawn towards
