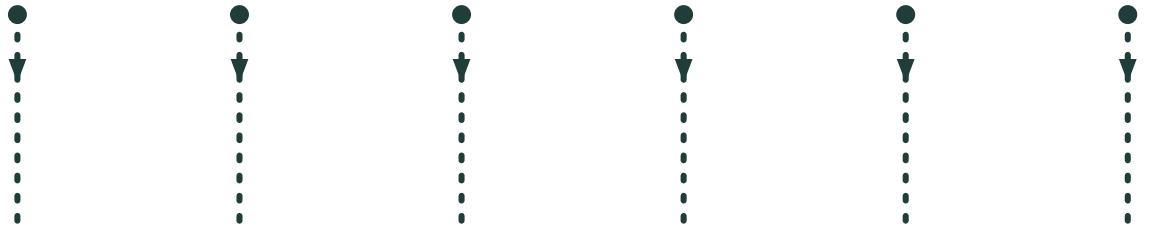
Rainy Day Pencil Control

Follow the dots slowly. Stop for a rest whenever your hand needs one.

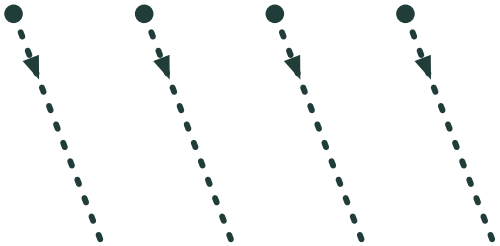
1. Let the rain fall.

Start at each dot. Move down to the end.



2. Slanting drips

Slant down the window.



3. Puddle swoops

Swoop into the puddle.

4. Your rainy picture

Add your own rain, drips or puddles around the cloud.

A grown-up can model a stroke. Short, comfortable practice is enough.
