Read Thermometers in Five-Degree Steps

Answers and adult support.

Readings

A: 5 degrees Celsius. B: 20 degrees Celsius. C: 35 degrees Celsius. D: 10 degrees Celsius. E: 30 degrees Celsius. F: 15 degrees Celsius.

Warmest

C is warmest at 35 degrees Celsius. It is 25 degrees warmer than D, which reads 10 degrees Celsius.

How to read the scale

Start at zero. Every small equal interval represents 5 degrees Celsius. There are eight intervals from 0 to 40. Read the top of the dark liquid column, rather than its bottom. These diagrams show scales; they are not instructions for handling real thermometers.
