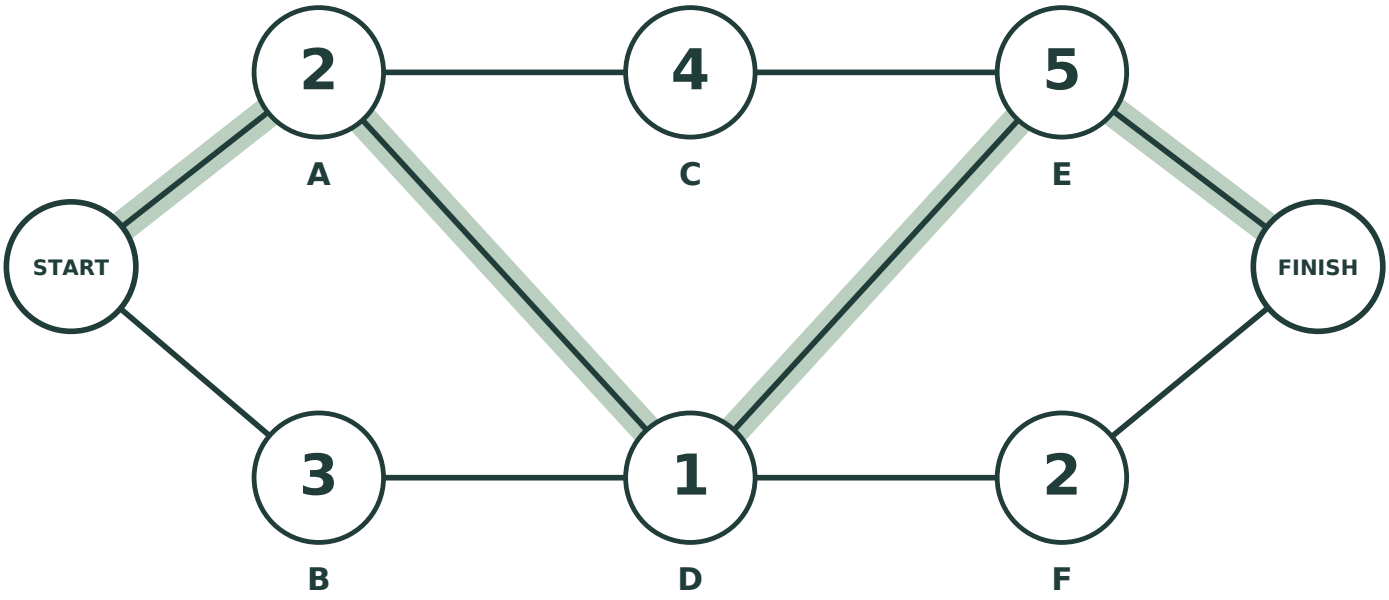
River Crossing: The Eight-Point Route

One route follows every rule. Check the marked bridges.

1. Start at START and finish at FINISH.
2. Move only along the drawn bridges. Do not visit a stone twice.
3. Visit exactly three numbered stones. Their numbers must total 8.

The lines are bridges. The numbers are on stones.



Route: START, A, D, E, FINISH

2 + 1 + 5 = 8

This route uses exactly three stones and follows a bridge for every move. Other routes can reach the far bank, but they do not meet both number rules.

You may move in either direction along a bridge. Do not revisit a stone.
