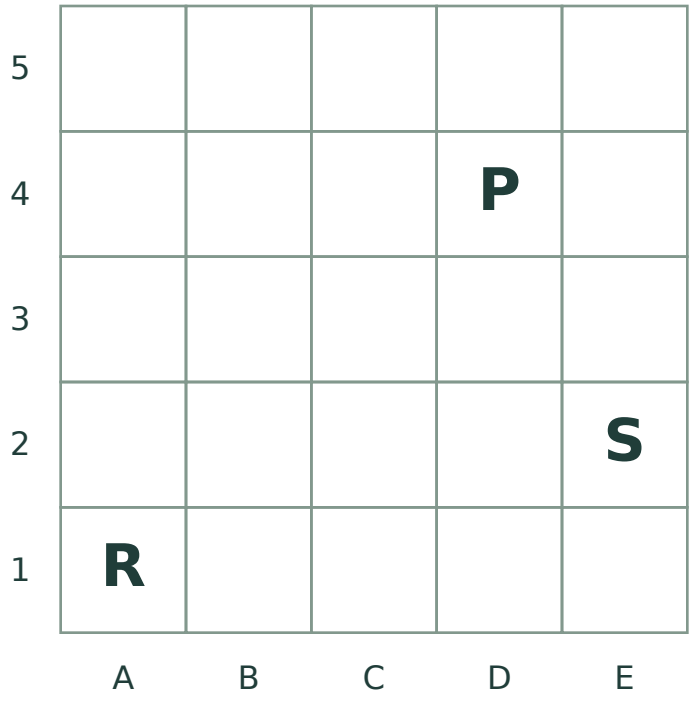
Robot Delivery: Follow and Repair the Code

Trace, debug and write an algorithm.

Start at R in A1. Arrows mean directions on the page. Each arrow moves one square. Reach parcel P; the station S is optional.



1. Follow this code. Which square do you reach?

Square: _____

2. This code misses P. Fix command 4 only.

4 becomes: ____

3. Write a different shortest route to P: six arrows.
