Seaside Shell Grid Logic

Use the three starting numbers and both directions to finish the grid.

1. Write 1, 2 or 3 in each empty box.
2. Each row must contain 1, 2 and 3 once each.
3. Each column must contain 1, 2 and 3 once each.

The numbers tell you how many shells.

1 

2 

3 

	A	B	C
1	A1 **1**	B1 **2**	C1
2	A2	B2 **1**	C2
3	A3	B3	C3

Tell a grown-up about one missing number.

The number in _____ must be _____ because:

Rows go across; columns go down. A1 is the top-left box.
