Four-Day Weather Clue Puzzle

Answers and adult support.

Unique solution

Monday is Cloudy. Tuesday is Sunny. Wednesday is Rainy. Thursday is Windy.

Reasoning

Cloudy must be earlier than Sunny. The Sunny–Rainy pair cannot be Monday–Tuesday because Cloudy would have no earlier place. It cannot be Wednesday–Thursday because Tuesday would then need to be Cloudy or Windy. So Sunny is Tuesday and Rainy is Wednesday; Cloudy is Monday and Windy is Thursday.

Independent check

All 24 possible orders were checked. Exactly one order satisfies all four printed clues.
