Woodland Delivery Order Logic

Use the clues to work out the courier's first, second, third and fourth stops.

Visit each stop once. Write one name in each numbered card.

Read the stop names together.

Oak Tree	**Pond**	**Log Bridge**	**Fern Patch**

Read all three clues before you start.

1. Visit Log Bridge immediately after Pond.

2. Visit Oak Tree after Fern Patch.

3. Oak Tree is not the last stop.

Immediately after means the very next stop.

After means later in the order, with or without stops between.

Stop 1	Stop 2	Stop 3	Stop 4
_____	_____	_____	_____

Tell a grown-up how you know one of the stops.

I know _____ because:

Each place is visited once. This is a sequence puzzle: the cards are not a map.
