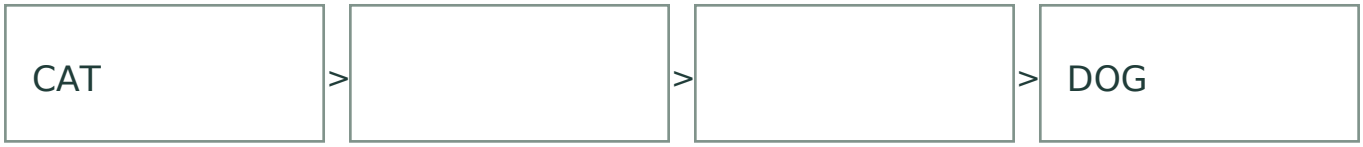
Word Ladders: Change One Letter

Keep the word length. Change one letter at each step.

Change exactly one letter in the same position. Keep the length and letter order. Use every bank word once.

Write the bank words into the empty boxes in order.

1. Word bank: DOT COT



COT: a small bed. DOT: a small round mark.

Under each new word, note the changed letter position. Count from the left, starting at 1.

2. Word bank: WORM CORD WORD

CORD: a thick string. WORD: a unit of language. WORM: a small long animal.

Under each new word, note the changed letter position. Count from the left, starting at 1.

Check: one changed letter, real words, every bank word once.
